

ABOUT CLYVANOR: A passion for structural wood products since 1977!

Clyvanor has been manufacturing prefabricated wood structural components since 1977. Originally, our plant was dedicated exclusively to manufacturing wood roof trusses for the local market. However, the market's growing needs quickly prompted the Clyvanor team to invest in creating a line of wood floor trusses. In order to further expand our product line and offer an even more complete package, we made subsequent investments to secure a place in the growing prefabricated wall panels market.

BASIC FUNCTION: Entry level Designer responsible for the accurate design of roof and floor trusses for single family project and estimates.

PRINCIPAL DUTIES/RESPONSIBILITIES:

- Design metal plate connected wood trusses utilizing Mitek software.
- Optimize designs for maximum efficiency.
- Assist sales and production with design service and troubleshooting.
- Performs other duties as required.
- Fully learn and understand Mitek Software.
